LABOR IS CALLED TO FIGHT AGAINST ALL FUTURE WARS

SUMMONS TO ARMS WOULD
PRECIPITATE WORLD
WIDE STRIKE.

REFUSE TO WORK

Proposal Places Ban on Trans-
porting Troops or
Supplies.

London, Aug. 23.—A communication of the workers in the world to fight against future wars is urged in an appeal by "proletariat of the universal" issued by the International League of Trade Unions at Rotterdam and signed by a number of European labor leaders.

Senators to Support Men
"One of the best methods of preventing future wars," says the statement, "is to refuse to transport troops or material. Organized labor should cease to be the accomplice of imperialism and militarism, and only the decided action of the people will save mankind."

World Strike Promised
Other recommendations made by the appeal to the world workers include that no ammunition trains shall be run, no steamers loaded with war materials, not a single soldier transported, all food supplies withheld from the manufacture of all war materials and immediately upon the declaration of war, a general world strike would be called if all other methods fail.

Strength Has Grown
"Comrades," the statement concludes, "in 1917, our organization numbered 2,000,000 members. It is now strong, having 27,000,000 members, but its strength rather lies in the spirit which animates it. This organization in its own hands has the power to save the world from a repetition of the cruelty which lies behind it. War against war."

COX IS CALLED IN

Chicago, Aug. 23.—Chairman Will Hays and George W. Meyer, of the Republican and Democratic national committees, respectively, the treasurer of each committee and each treasurer of the campaign committees of each party, today were ordered to appear before the senate committee investigating campaign expenditures.

THE COMMITTEE DIRECTED SENATOR

to Gov. Cox and President Harding,
White, William Marsh, of Ohio, democratic

Antis Make Injunctions More Binding

BY ASSOCIATED PRESS.
Nashville, Tenn., Aug. 23.—Anti-suffrage forces have taken further steps to prevent certification of the ratification of the federal suffrage amendment by the Tennessee legislature.

Under an amended bill filed in court here, Chief Clerk W. M. Carter and John Green, of the senate and house, respectively, were made parties to the temporary injunction restraining the governor, secretary of state, and the speakers of the senate and house from taking any steps toward certifying ratification to the secretary of state at Washington.

Prevents Final Action
Opponents of suffrage declare that their action in amending the temporary injunction will serve to prevent final legislative action on the resolution as late as after the hearing on the injunction proceedings. The writ issued against the state officials is returnable at any time counsel for the several parties to the action should agree upon, but as yet no date for the hearing has been set. But in the meantime anti-suffrage speakers will be sent to all parts of the state.

Deny Ratification
Suffrage opponents are acting on the theory that the house has not disposed of the Walker motion to reconsider the resolution vote, and they yet have a chance to adopt a and rescind ratification. Gov. Roberts, Attorney General Thompson and others hold that the amendment has been ratified and declared only the injunction stands in the way of certifying ratification to Washington.

RUNAWAYS EXPLAIN
ACTION TO PEOPLE
Decatur, Ala., Aug. 23.—Members of the Tennessee house of representatives here today issued a formal statement addressed to the people of Tennessee, setting forth their reasons for breaking a quorum in the house by leaving the state. It bears the signatures of 47 members of whom 27 are democrats and 20 republicans.

Emphasizing "reasons for our action in breaking a quorum in order to prevent the passage of the resolution ratifying the federal suffrage amendment," the statement said:

"We are convinced that the methods which were adopted to secure the passage of the resolution were improper and not justified. We believe that the majority of the people of Tennessee do not favor the ratification of said amendment. We would have surrendered rights and would have been forced to surrender the sovereign rights of the state on the question of suffrage, which is one of the most important and sacred rights of the people. The only defense that the people of Tennessee had at this juncture rested in our hands, and the only way we could save the state was to take the course that we have taken."

"The next legislature convened with a mandate from the people of Tennessee, without question, it will have the right to ratify said amendment if in the judgment of the representatives and the people it seems proper so to do."

He is to speak next Wednesday at a republican convention in the evening at Evansville, Ind., Thursday night at Pittsburgh, Friday night at New York, Conn., and Saturday at New York. The republican campaign fund and the league of nations are scheduled to feature the government's immediate addresses.

You will do well to be interested in the following story of a Gazette classified ad success.

We had an oak office desk with other and sliver of a chair which was advertised in your paper for three insertions. The first day brought two inquiries before six o'clock and the desk and chair were sold the following morning. In all we had about fifteen calls and could have sold several desks if we had them.

Washington, Aug. 23.—Poland has been cautioned by the American government not to permit her armies in their counter-offensive against the bolsheviks to advance beyond the ethnographic boundaries of Poland.

The attitude of the United States was made plain to Poland formally in the United States note on the Polish situation addressed to the Italian ambassador. In requesting a declaration from the allied and associated powers in favor of the preservation of the integrity of Russia, the United States suggested also that such a declaration should be accompanied by the announcement that no transgression by Poland will be permitted.

It calls on all good Moslems to accept the tenets of bolshevism.

Halide Edib Hanem, the famous Turkish woman reformer, who fled to Ankara to evade arrest by the British and to participate in the Turkish revolution, definitely rejects bolshevism for Turkey. An Ankara dispatch says she and four members of the Mustafa Kemal cabinet have formed the nucleus of an anti-bolshevik party, which is greatly in the minority. Halide declared.

ARMY REGROUPED Soviet Menacing Lemberg Begins Retreat Under Pressure.

Warsaw, Aug. 23.—The process of bottling up the Russian soviet forces on the northern front between Prussia and the Vistula river has been completed, according to an official statement issued just before last midnight. The Poles have closed the gateway of escape, taking prisoners and materials in such quantities that it is impossible to count them.

Polish forces Sunday night were endeavoring to cut off the retreat of four Russian soviet armies or force them into German territory. On the extreme Polish left the soviet cavalry was defeated and driven out of Soldan and the regions occupied by the Russians in the north Prussia area between Thorn and Plock.

Poles Are Regrouped
The Polish forces have been regrouped into two armies for pursuit of the Russians. The northern army under General Haller and the center army under President Pilsudski. The latter's advance is expected to reach the best conditions. The Poles have counted more than 35,000 prisoners and 200 cannon.

General Haller's forces have reached the line from Mlava to Przasnysz and his right wing is moving toward Ostroienka, 22 miles southwest of Lomza. After capturing Ciechanow the Poles advanced rapidly and succeeded in cutting the only direct railway running eastward from the soviet position.

Volunteer Polish divisions are now attacking Przasnysz.

HARDING IN LEAD SO FAR IN CONTEST

Slight Change After Two Months Though Cox Is Gaining Some Says Lawrence.

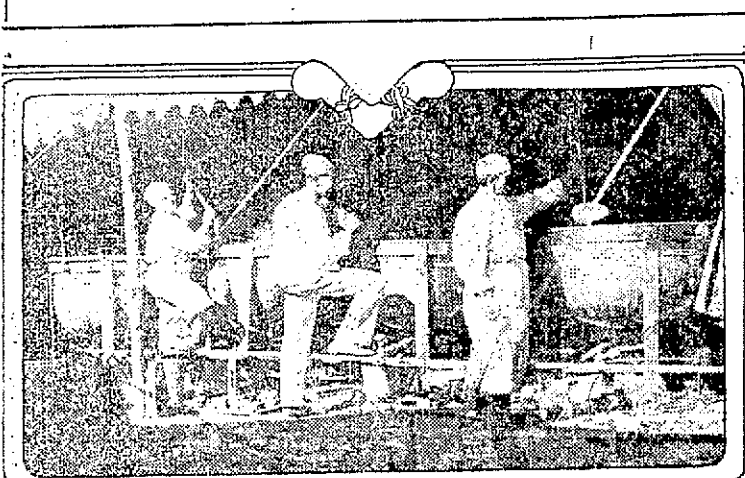

BY DAVID LAWRENCE
Copyright, 1920, by the Janesville Gazette.

Washington, Aug. 22.—Nearly two of the four months of the presidential campaign has now elapsed, and there is not much reason to change as yet the forecast of the probable outcome which followed upon the two national conventions. Judged by reports from all parts to the country, from Democratic as well as Republican sources, as matters stand today Senator Harding, the Republican nominee, is the lead, and would win though hardly by the same margin that he might have secured when he was first nominated. In other words, the chances of Governor Cox, his main opponent, are lessening. Whether it will make enough headway to overcome the Harding lead is another question, the answer to which lies in the campaign yet to be made by both candidates and workers in their behalf. The Democrats are making every effort to increase the lead with every organization. The Republicans are holding back with a smooth working machinery that can be turned on in October, to rely on the late season in October.

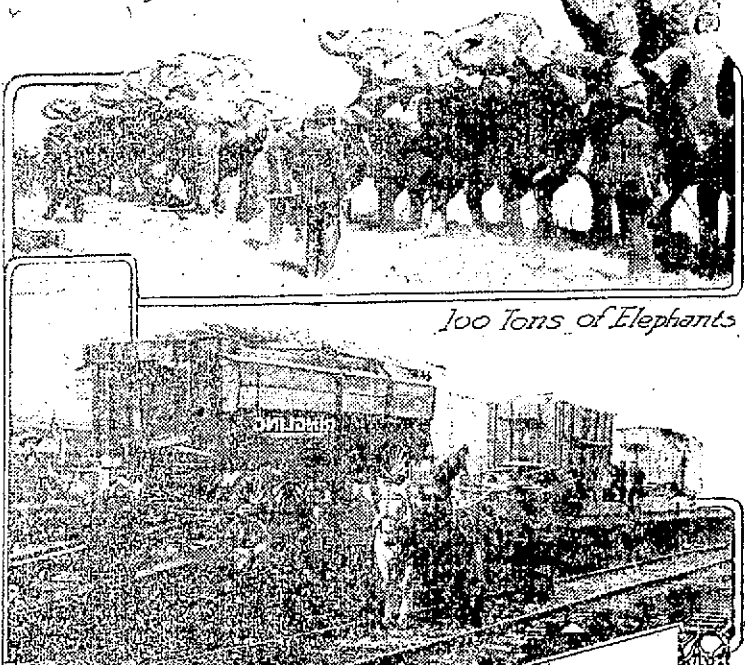

Harding Handicap
But the race between Cox and Harding can best be described by taking as an analogy the recent yacht race of America and England. Cox has been seven minutes behind in point of time so that he cannot win. The same handicap is placed on the Republican side. The Democrats are holding back with a smooth working machinery that can be turned on in October, to rely on the late season in October.

Wilson Out of Game
When President Wilson did get back, the Democrats were heartened considerably. They were sure that he would outmaneuver Cox and Harding. But when he failed to do so, they were disappointed. The Democrats are now in a position to make a strong showing in the coming campaign. They are sure that they will win.

To a large extent anything Democratic is still winning in many sections of the country where discontent over domestic administration is particularly deep-seated. Some of the friends of Governor Cox maintain that before the campaign is over, the distinction will be more than apparent between the two candidates.

WOMEN ARE TOLD HOW TO REGISTER

Requirements of New Voters Are Outlined by Mrs. Youmans.

Milwaukee, Aug. 22.—The importance of early registration on the part of women voters in Wisconsin is urged by Mrs. Henry M. Youmans, associate chairman of the republican state central committee of Wisconsin. In a statement, Mrs. Youmans says:

"Women who wish to exercise their new right as voters must remember that they must register, providing they live in cities having more than 5000 population, or in cities having a population of less than 5000 in which the city authorities.

Register August 31.
"The first and last registration day is August 31. It is possible to register on primary election day, September 7, but the election officials will be so crowded by the addition of many new voters that it will be extremely difficult to register.

"Registration takes place at the polling place in each election precinct. Women register under their own given or christian name rather than their husband's name. Thus a woman registers as Mrs. Mary Smith or Mrs. Stella Jones, rather than Mrs. John Smith of Mrs. James Jones.

Must Be 21 Years Old.
"Qualifications of women voters in Wisconsin are the same as of men voters. In order to vote a woman must be 21 years of age; a citizen of the United States; a resident in the state of Wisconsin one year; and in the election precinct in which she offers to vote, 10 days.

"No person who is a pauper, under guardianship, non compos mentis, or insane; and no person convicted of a felony, unless restored to civil rights, is qualified to vote. Women who are the wives of men who are citizens of the United States and a resident of Wisconsin, the wife may vote providing she is otherwise qualified. If the husband is not a citizen of the United States and a resident of Wisconsin, the wife may not vote.

Unmarried women are citizens if their fathers were citizens; or, though their fathers were aliens, they were born in this country; or if they have been naturalized. Mrs. Youmans, in discussing the ratification of the federal amendment in Tennessee, says:

Decisive Vote Republican
"It is interesting to note that young Mr. Burr, who cast the decisive vote in favor of ratification after the great battle in the legislature at Nashville, is a republican. He thus carries out republican tradition, which has been established in favor of the enfranchisement of women.

Because the republican party, more than any other, has given women the vote, and because it has taken a more advanced stand in education, in industrial legislation, moral legislation, and other things in which women are interested, I believe that a great majority of the women of Wisconsin will vote for the success of the republican principles." offavor of either.

Eleven-year old Byron Dustin Basford—Beloit's second river victim of 1920—was buried in Beloit, Sunday afternoon, following services in the home on Riverside drive.

The boy was drowned in Rock river at 6:30 o'clock Friday evening. He had been fishing from a rowing boat in the middle stream opposite the Bassford bathing beach, 5 miles from Janesville and south of Rock river, where his aunt, Mrs. Rose Basford, lives.

Your Uncle Sam O.K's Babe Ruth

New York, Aug. 23.—Babe Ruth and his home runs have been "investigated" by Uncle Sam and both have been given an official O.K. Some of the friends of the champion home run hitter of all time decided some time ago that it might be that Ruth's home runs were due in some part to the different baseball used this year in the major leagues so they gathered up a number of the balls. The Yankees player had hit out of the parks and sent them to the bureau of standards for investigation.

These balls were put through a "third degree" if baseballs ever had such an experience. Scientists doubted beat and dismembered them and reported that there was nothing in them that would cause them to "ride" farther when hit than the baseballs heretofore used. In effect, the scientists said it was the "Babe's" mighty blow that produced his home runs.

Smokeless and Black Powders Waterproof

We have old-fashioned notions about business. We know we can make "one-time" sales and gain larger profits per sale, but we don't conduct our business in that manner.

On the other hand, we've been selling automobile accessories for five years. Thousands of Janesville Motorists come to us for their accessories. We've bought and sold only merchandise of superior merit. Customers accept our word, our goods and our recommendations without question.

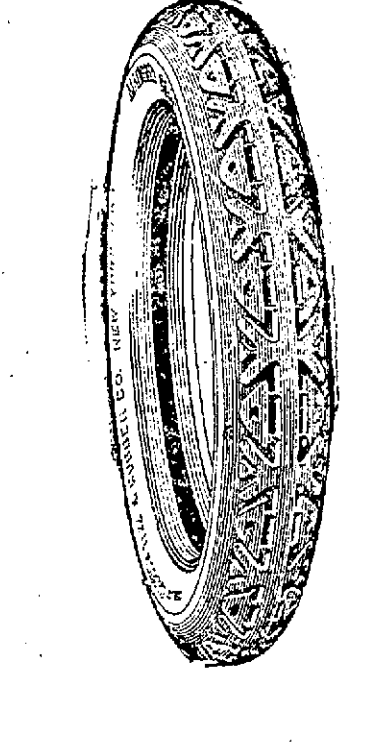

We've built a permanent business on a sound foundation of moral obligation. Individual profits are less perhaps, but our business has grown, doubled, tripled and prospered mightily on a fair-and-square policy.

So when we recommend to you—

The DIARY OF AN ENGAGED GIRL

LINDSEY LAST NIGHT AT HOME.

Friday, Aug. 20.—Our last evening before sailing for shores unknown and what an evening! Had to finish that last package, which was not as simple as it sounds; then there was a big dinner, at which everybody presided. Mother Jack came over in high feather to see her future daughter-in-law, and present her with a most lovely oriental handbag that fairly glowed with jewels. I was so proud of it, and so proud of his little Lindsey. Made me blush with only one who was not hilarious at the family board was my poor dear cousin Cecil. He has not been about much during the last week or so, and looked so gone and sad. My heart fairly ached for him.

He did try his best to be jolly with the rest of us, and yet under it all I knew what was happening. Aunt Cecilia and her family were happy, and Aunt Cecilia was going to join us later in Paris, and that they might be married there and then take their honeymoon in southern France. Now, isn't that just too perfect? And isn't she devoted?

We sat and fraternized for a long time after dinner, and then I had to go to bed—telling me to be sure and pay him a visit there before I went to bed—that is if I had time. Mother had to do a fairway for me, too, had some last packing to do, and Mother Jack went home early. She is a discerning woman, I'll say.

Then Jack and I had the last hour together. There is not much to say about it all, save that we were both rather stinky and tired when we left for the morning. He leaves for California in the afternoon, and we leave at 12 noon.

Sometimes before midnight he looks me in his arms and held me very close, and buried his face in my hair—for a very long time, I was told that the most intimate to throw upon my arms wide to him and tell him to fly with me then and there, and I had on another occasion, for Europe seemed very far away and his arms very sweet and all engulging and necessary.

Heart and Home Problems

BY ELIZABETH THOMPSON
Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

"Anxious". Yes, cocoa butter massaged into the neck or hollow places will produce flesh. The same should be given every night. For good results the treatments should be given faithfully.

Dear Mrs. Thompson: A friend of mine has enlisted in the United States service. I do not know which branch, army or navy. To whom shall I write to secure his address? Are the boys that enlist now trusted in the United States before they are sent across?

If a letter is sent to a boy in camp and he falls before it reaches him, is it forwarded to him or returned to the writer.

A BOY READER.

If you know his parents, write them for his address. In case you write to the army and navy departments for information, enclose a stamped and addressed envelope for your reply.

Boys who enlist now are trained here.

Usually the letters are forwarded.

Dear Mrs. Thompson: I am a girl of 12. There are two other girls, one is my age and the other is 10 years old. Without my parents, tell me of some way to earn some money before school starts? We would like to earn some money so we can buy some clothes. We live on a farm. B. S. BODDS.

Can you make good apple jelly, canned tomatoes, catsup, or anything on that order? You might try it and then sell your wares to tourists who pass by the farm on Saturday and Sundays. Flowers and fresh fruits and vegetables are sold easily sold. It is not an easy task for girls of your age to make money, because there are so few possibilities. In case you have an idea be sure to have it very neat and attractive. Cover it with white paper and white cloth. Dress as neatly as you can and be sure your hands and finger nails are clean.

TRIM COSTUME FOR SCHOOL OR SPORTS

Dear Mrs. Thompson: I am a girl 19 years old and am going with a fellow 20. We intend to be married in the near future.

He wants me to live at his home. Do you think it advisable for us to do so? Or should we postpone the marriage until we can get up a home of our own?

There are only a younger brother and his father at home. His mother died several years ago.

I seem to lack confidence in myself to go ahead and do the things I wish. I have watched your columns and have been profited by the advice you can tell me what is best.

YOURS SINCERELY,

If you were not so young, I would say to marry and make a home for the three men. You would be mistress of the home and would feel free to keep house in your own way. When a girl goes to live with her husband's people when the mother is alive, she is apt to feel out of place and not wanted.

Be very sure that you are not undertaking too much. At the age of 19 you are scarcely old enough to be sure of your love. You should take more consideration the length of time you have known your fiance and whether or not you like the same things.

In regard to your lack of confidence in yourself, you are holding a wrong mental attitude. Think that you can do things and you will find you can. Now you are afraid you can't and the result is that you haven't enough faith in yourself to do them.

I have seen people who had no confidence and were utterly discouraged change entirely because they became "I can't" instead of "I am afraid I can't."

HERO PIPELESS FURNACE

The heating system that washes, purifies and properly humidifies the atmosphere of the home while breathing it.

We call special attention to the experience of Messrs. Chas. Taylor and A. P. Gaarder, of Orfordville, as set forth in the following letters. Mr. Taylor's furnace was installed in October, 1919. During the following spring seven more Hero furnaces were sold within a stone's throw of his residence, and more than a carload were sold in and around Orfordville.

Hero Furnace Co.,
57 West Lake St.,
Chicago, Ill.

Gentlemen:

My experience with the Hero Furnace is that it is certainly all that its name implies. After using one for a season my opinion is that the maximum heat can be produced with the minimum fuel and that its superior is not to be found among the various makes of furnaces.

It can be regulated and controlled with the ease with which an ordinary stove can be operated. The distribution of heat throughout the house is phenomenal, both floors sharing in an almost equal amount of heat. My house registered seventy and seventy-two in the living rooms and about sixty in the sleeping chambers. Rooms would be between sixty and seventy in the morning.

I have on more than one occasion, raised the temperature, in zero weather, twenty degrees in ten minutes. Any kind of fuel can be used equally well or nearly so. I burned quite an amount of soft coal during the winter and never found it necessary to clean either the furnace or the pipe.

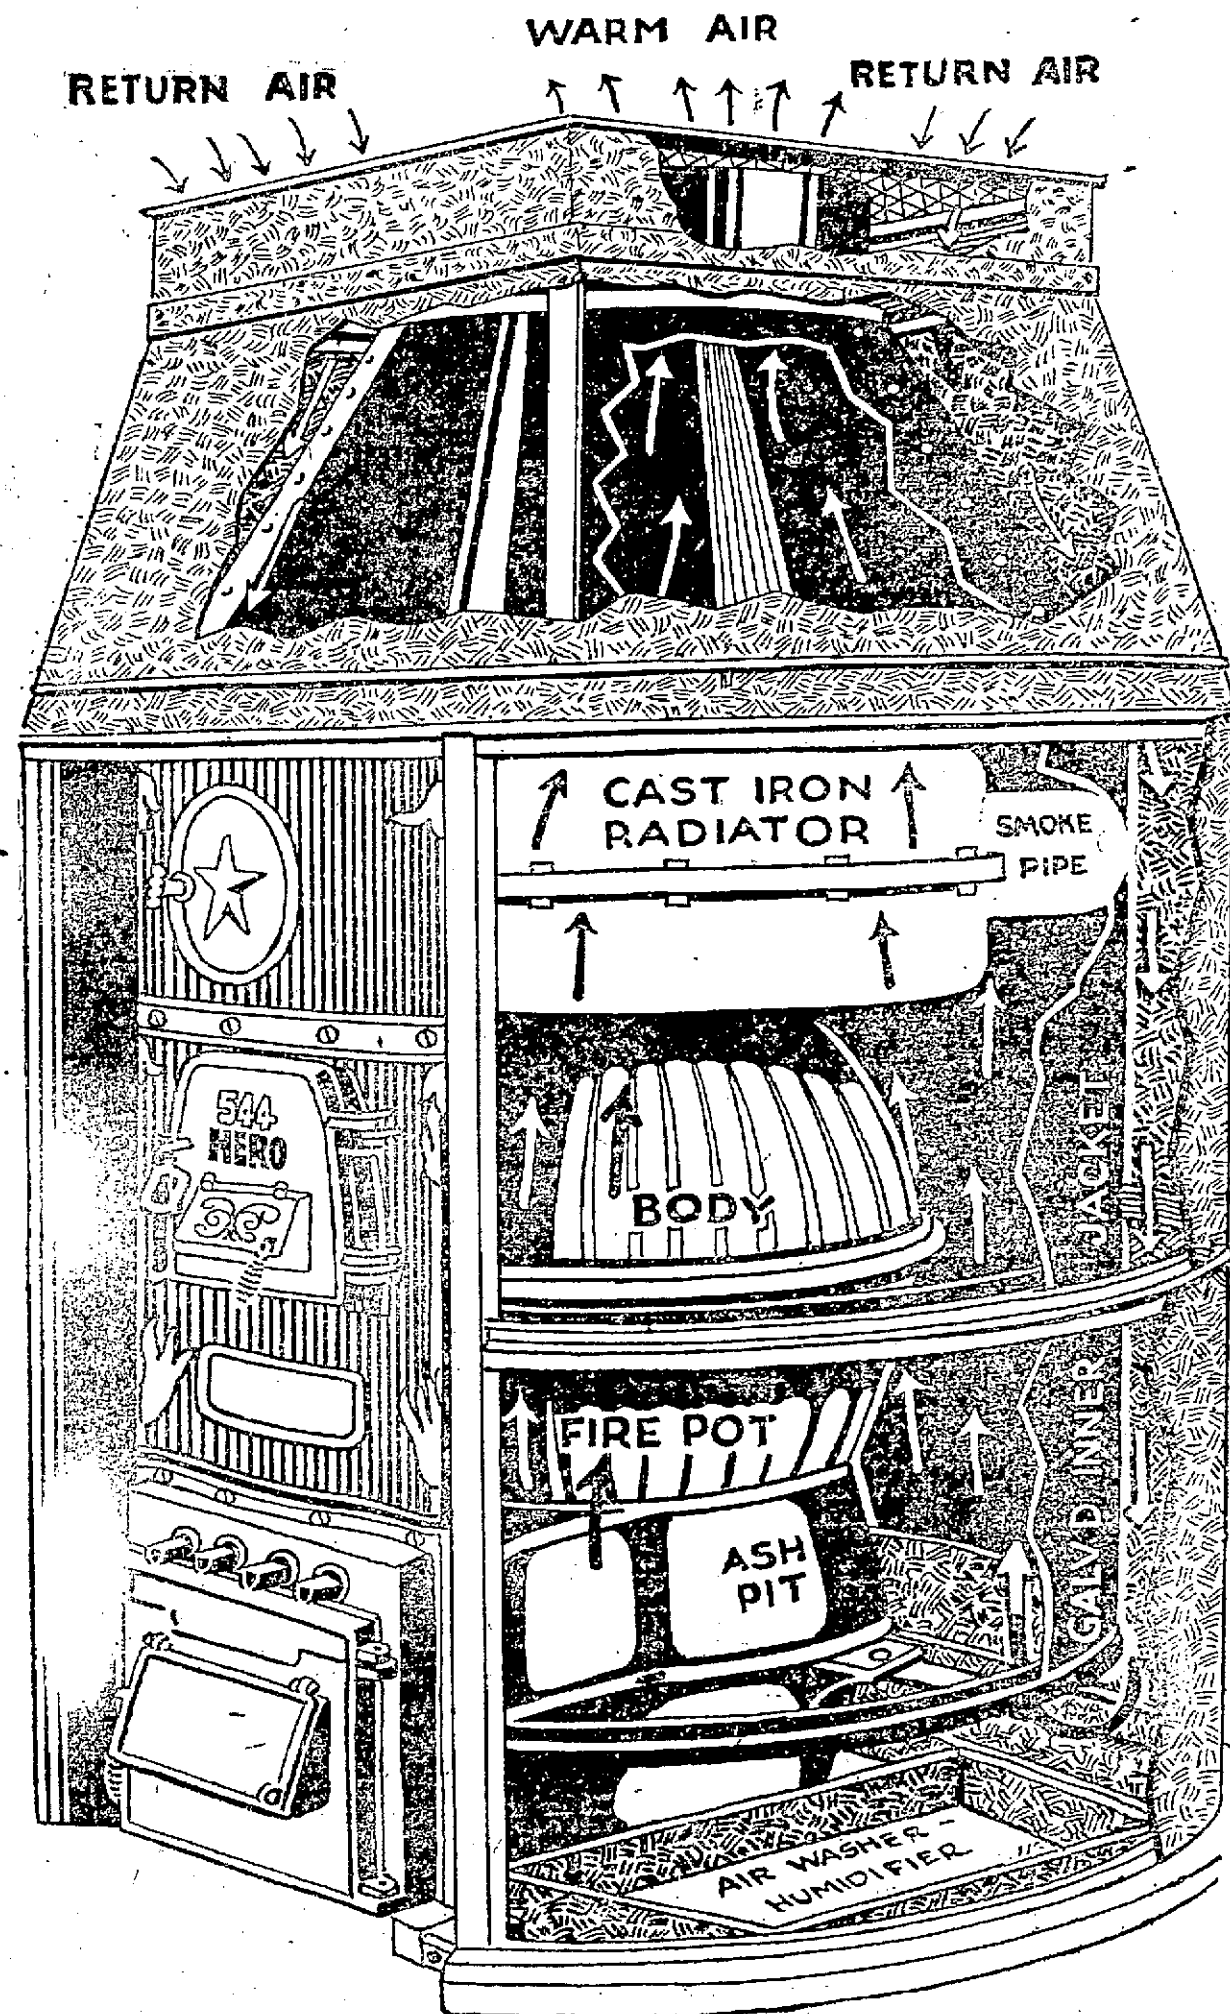

Its method of humidifying the air is certainly unique. This feature alone would commend it to my judgment, other things being equal. The amount of dust collected from the atmosphere is almost incredible.

If I were again in the market for a furnace I certainly should make no change in the selection.

Very truly yours,

Chas. Taylor,

Hero Furnace Co.,
57 West Lake St.,
Chicago, Ill.

Gentlemen:

I take pleasure in giving you our experience with the pipeless furnace.

Our home was heated for eighteen years with a stack furnace of the riveted type. As we were not getting sufficient heat and as the furnace was leaking gas, we decided to replace it with a Hero.

The house is large, having a dozen good-sized rooms, and many of our acquaintances were skeptical about the possibility of heating with a pipeless furnace.

The new furnace was installed in February during cold weather, and results have been satisfactory beyond our expectations. It heats the house from bottom to top, the temperature upstairs being a few degrees cooler than that of the lower rooms. One of the surprising things to us is the way in which the upper rooms are heated, a result we were never able to accomplish with the old furnace. We also find that the house is heated evenly on windy days regardless of the direction from which the wind blows.

While the new furnace gives much greater heat than the old one, it burns much less fuel and requires less attention.

In our opinion one of the very best features of your furnace is the vapor system. The air in our rooms is a good deal like that of a spring morning after a rain and the vapor pans remove the dust and dirt from the air so completely that dusting is a simple matter.

I helped Mr. Egan when he installed the furnace and noticed that he was very particular about the way the work was done.

Wishing the Hero the success it justly deserves, I am

Very truly yours,
A. P. Gaarder.

The jackets of the Hero system are wide and roomy, and the air of the home travels through the system several times an hour. Each time it passes directly over open water surface, with the result that the air is washed clean of dust and dirt, while at the same time it picks up moisture in the natural way. The air of a home heated with a Hero System is as mellow as the sea breezes of Palm Beach or Bermuda.

We are in position to make immediate deliveries. Now is the time to buy if you wish to use a furnace this winter.

The Hero system will burn hard or soft coal, coke or wood.

The furnace is made in five sizes. The three smaller sizes are adapted to ordinary residence use, and are sold at prices that place them within reach of the average family.
